Additin RC 5000 series: New Solutions for water-miscible metalworking fluids

Mannheim – Rhein Chemie Rheinau GmbH, an additive specialist for industrial lubricants, extends its product portfolio about with product line for water-miscible metalworking fluids. The new Additin® RC 5000 series includes a total of twelve products and can be divided into the following product groups: Lubricity additives, EP additives, Corrosion inhibitors plus Additive packages.

Already, many components from Rhein Chemie can be used in water-miscible metalworking fluids with the aid of emulsifiers. The new Additin® RC 5000 series offers special solutions for water-miscible metalworking fluids –both for emulsifiable and water-soluble types. Furthermore the new Additin® RC 5000 series contents contains several products that are suitable for the use in HFC fluids, water-based metal cleaners and antifreeze. This is only the beginning of an ongoing expansion into this product area.

Rhein Chemie is a chemicals company which has had a successful track record in customized additives and service products stretching back over 100 years. The approximately 850-strong workforce produces and sells products for various sectors of the rubber, lubricant and plastics industries worldwide. The company is headquartered in Mannheim-Rheinau, Germany and has subsidiaries and production facilities in Europe, Asia and North and South America. Rhein Chemie is a wholly owned subsidiary of the LANXESS Group, Leverkusen, Germany.
