

Cohedur® D 331

Specialty and Standard Chemicals

Function

Cohedur® D 331 is a bonding agent for textile.

Product description

Composition: diphenyl methane diisocyanate, isomers and homologues, with iron booster

Appearance: dark brown to black, viscous liquid

<u>Property</u>	<u>Nominal value</u>	<u>Unit</u>	<u>Test method</u>
Viscosity	1550 ± 250	mPa.s	ASTM D 2196
Amine equivalent from NCO	140 ± 5	%	ASTM D 2572

Packaging

Tank truck.

Storage stability

In original closed containers under cool (above 15 °C) and dry conditions 91 days from date of production.

Handling

For additional handling information on Cohedur® D 331 please consult current safety data sheet.

These raw material properties are typical and, unless specifically indicated otherwise, are not to be considered as delivery specification.

Cohedur® is a Registered Trademark of LANXESS Deutschland GmbH.

Our technical advice - whether verbal, in writing or by way of trials - is given in good faith but without warranty, and this also applies where proprietary rights of third parties are involved. It does not release you from the obligation to test the products supplied by us as to their suitability for the intended processes and uses. The application, use and processing of the products are beyond our control and, therefore, entirely your own responsibility. Should, in spite of this, liability be established for any damage, it will be limited to the value of the goods delivered by us and used by you. We will, of course, provide products of consistent quality within the scope of our General Conditions of Sale and Delivery.
